Total for May 2017	49986	30570	

### Keys:

**A** = Applicant Received what they applied for

**B** = Applicant applied for GST Inclusive amount and grant was reduced to GST Exclusive amount

**C** = We had to reduce the amount granted so as to allocate funds equitably to those who applied this month. What the applicant applied for was out of proportion to the funds we had available to distribute

**D** = If our Society were generating unlimited funds for distribution, there is no reason why we would not have made this grant. However, we do not have unlimited funds and we felt this application might be better suited for a larger Gaming Machine Society or another Society operating in their area. We wish the applicant all the best for their important fund raising efforts

**E** = Application was retrospective and unlawful to make.
